ENDURANCE CLIPON

The race clipons were developed by World Endurance racers– Jason Pridmore, Daniel Ribalta, Victor Carrasco and many others. They are very comfortable especially when racing in the World Endurance races such as 24H Le Mans and 24 Hours Bol D´or! They are made from a strong aluminium alloy, which is milled on a 5-axe 3D shaping centre. In the event of a crash, to replace a clipon tube it is easy and very quick, which is important during racing.

Available in diameters 50mm or 52mm

PRICE: 270€

THROTTLE KITS

- Quick action throttle
- Choice of 3 different throttle cable settings
- strong aluminium alloy 7075 T651
- super lightweight material
- hardened black anodizing
- used and tested in the Le Mans 24 Hour race

This product was tested by the MacoRacing team during the WorldEndurance. This throttle kit is known for its unique system of a quick action movement. Due to the complicated production and high cost of Quick action throttles, only several teams have used it in the Endurance World Championship before. With up-to-date technology, we have made it affordable for current racers. You have the right to have the same material like top racers in a World Championship and to enjoy it!

The set includes 3 various settings for the throttle cable. The throttle housing is fully milled from a hardened alloy from an aluminium 7075 T6. Bowdens have a teflon coating –the throttle cables move extremely easily.

PRICE: 156€

GAS CAPS

Gas Cap with Thread

Gas cap with thread. Available in clear aluminium, or hard black anodization. Laser cut.

Quick Release Gas Cap

Gas caps are made of an air industry purpose material and manufactured on CNC machine, the surface is hard black anodized. Sealing (O-ring) comes out of stuff which resists petrol effect and natural ageing process. Gas caps signs are laser cut.

CRASH PROTECTORS

The supporting part is made of hardened aluminium alloy - 7075 T6. The protector itself is casted on CNC injection press machine. The mixture contents glassy and carbon fiber - those guarantee the higher protection against the abrasion in case of crash. The set always includes 2 holders, fitting bolts and 2 protectors. The protectors are available in black, red, blue, yellow, white and in green colour or in polished aluminium. Holders color : clear aluminium or hard black anodization. PP Tuning offers also aluminium protectors with hook for bike's transport securing.

LONG LIFE WARRANTY

Long Life Warranty

PP Tuning rear sets and adjustable brake and clutch levers have full guarantee against breakage for 2 years. This guarantee is even valid by braking PP products by crash. We are not asking how you broke it or where you broke it – you broke it, we are going to replace it for free. If you are interested in this "UNBREAKABLE GUARANTEE" read the conditions below.

PP Tuning guarantee unbreakably of its rear sets and adjustable brake and clutch levers for the maximum period of 2 years from the date of purchase when these conditions are fulfilled:

- 1.** It is necessary to fill in the form of registration stated under www.pptuning.eu for recognition of unbreakable warranty.
- 2.** The warranty applies on main plate or small plate breakage. It does not refer to broken chain protectors, end of brake or shift levers and food pegs.
- 3.** PP Tuning reserves the right to repair just the broken or damaged part of the rear set that is protecting the product of working properly. In this case PP Tuning is demanding for control of the whole rear set not just the damaged parts. This warranty applies just on broken PP Tuning parts not for the original or other parts that PP Tuning rear sets are mounted on (brake cylinder, frame, exhaust...).
- 4.** PP Tuning reserves the rights to exchange just the broken parts not to exchange the rear set for new one.
- 5.** The customer agrees to pay all shipping and handling costs involved with any warranty claim.
- 6.** For acknowledging of the warranty the customer agrees to include all parts of the broken part by returning it for the purposes of future development and perfection of PP products.
- 7.** PP Tuning reserves the right to decline any warranty claim if it would seem invalid to them.
- 8.** Customer agrees to hold PP Tuning harmless regarding any liability in personal injury or property damage as a result of the failure of any PP Tuning product. By purchasing and mounting PP Tuning products the customer agrees to the conditions of this guaranty.
- 9.** PP Tuning is obligating that all personal dates on the "UNBREAKABLE WARRANTY PLUS CART" would be not reviled to any third person and will be strictly used just for the purpose evidence of UNBREAKABLE WARRANTY PLUS holders and for sending future information about PP Tuning activities (news, new products, pictures form races est.)
- 10.** PP Tuning products are allowed to be used on the race tracks only. Usage of PP Tuning products otherwise than on the close race track in on customer responsibility only.
